## The 10 Bushcraft Books

---

From [Christophermolloy.com](http://Christophermolloy.com) » [outdoor living](#) » [the 10 bushcraft books](#) where you will find online an excellent Australian bushcraft book:

'The 10 Bushcraft Books' by Richard Graves. Richard Harry Graves was born 17th July, 1898 (some sources list year of birth as 1897 or 1899) in Co. Waterford, Ireland. He died 3 days before I was born, on 3rd February, 1971 in Sydney, Australia. He is credited with the authorship of several books and is formerly a Commanding Officer of the Australian Jungle Survival & Rescue Detachment on active service with the U.S.A.A.F.

'The 10 Bushcraft Books' are the seminal texts on bushcraft and this on-line edition (based on the first edition of the book set) has been released to share this unique source of knowledge. Originally written as wartime information for conducting rescue missions, the notes were later revised and prepared for a School of Bushcraft which was conducted for nearly 20 years. Almost all the quirks of the original text have been retained (illustrations by the author, inconsistent word usage, strange punctuation, etc.) although I have removed 50% of the commas (believe it or not). I have also converted all imperial measurements into metric.

I found the PDF version on the same site and attached it to this article for your convenience.

Please visit Christopher site, he's done an excellent job providing us all with this marvel !
